SELECTING HEIFERS

The Five Cardinal Features of a Good

and Profitable Milk Cow.

When the burning passion to become

a famous and money-making dairyman

first takes possession of a man, he puts

the whole strength of his mind to the task

of overreaching the hard places that a

little contented teacher him are to be

found in each department of the occu-

pation.

It will not take him long to learn

that the first requisite of a profitable

dairy is a good herd of cows. He will

not read far either in books on dairying

or in the current papers of the agricul-

tural press before he comes across this

statement that not more than half the

cows in the dairy herds of the country

pay for their keep, and that the good

cows carry the poor ones, to the great

loss of their owners. He rapidly solves

the problem in his own mind by deter-

mining not to have any but good cows

in his herd. Now his trouble begins.

How is he to get up a herd of first-class,

good, profitable cows? If he happens to

have plenty of money he is almost cer-

tain to fall into the very common error

of thinking he can buy them. Certainly

this can be done, but it would be a long

list that contained the names of all the

men who have sunk fortunes in carrying

out this plain proposition. The trouble

is that cows possess such infinite varie-

ties of form and character. Some are

neither physically or mentally adapted

to the dairy, while others possess char-

acteristics that are absolutely starting

in their capacity for dairy work, while

the intermediate space is filled with

bad qualities inextricably mixed with

good ones.

In view of these difficulties, the best

ideal can be to select before the mind

the ideal animal and then educate our-

selves to the work of securing what we

consider the best. To do this there should

be no cast-iron rules, but breed and buy

opportunity presents itself. To become

educated in selecting the best dairy

cows, we naturally look to the books on

dairying and the agricultural papers.

With a single pen they describe the ideal

cow beautifully balanced, beginning

with a fine bony head, curving horns,

a slender neck, thin withers, and

spreading as you proceed, she has a

capacious barrel, high, broad hips,

a long, thin tail, square udder and a

flaming teat. Now go into the hard-

working herd of some success-

ful dairyman and ask him to point you

out his best specimen of a dairy cow.

The chances are that he will not exhibit

a single ideal cow, simply because the

act of milk-giving is not, so far as we

know, directly connected with or in any

degree dependent upon any external

feature of the cow, but upon the shape

and shape of the udder. Like the

feature of the cow, the shape of the

feature of the cow may fall to raise her

own calf.

For many years the writer made a

close study of the outward form and

the mental characteristics of the best

cows, paying regard to popular notions

with a view to duplicating the best ani-

mal. He found that the most promi-

nent feature of the cow was the shape

of the udder. The cow's udder was

quite equal to that of the average dairy-

man, but faith in the ideal form and

outward signs of inward excellence was

badly shaken. In order to supplement

experience with that of the best judges

we attended many of the sales of blood-

ed dairy cattle of late years, and con-

sulted the herdsmen who have brought

herds up to national reputations for

excellence of product, and find the fol-

lowing points make up the sum of a

good heifer: (1) Large tests. (2) Tests

set wide apart. (3) Open twist with

rudimentary under showing well from

the rear. (4) Deep in the flank. (5)

Slender. (6) The cow's udder has

features that have been found by prac-

tical men to lead most directly to a

correct judgment in selecting young

heifers.

The slim neck is generally indicative

of a slim-tapping tendency. With these

characteristics a heifer is not certain to

turn out a good one, but you have this

assurance, that she has every requisite

of good cow, and the whole is in fact

of years, while many heifers prove

absolutely that they possessed the ca-

capacity for making the milk, but that

misfortune of small tests, narrow quar-

ters, or delicate constitution, forbids

their ever becoming profitable cows.

Nothing has been said about pedigree in

choosing young heifers, but we merely

call attention to those outward signs

that apply to all breeds, whether of blue

and red or of the color of nobody in

particular. American Dairyman.

HEIFER HOMES.

Retreats Garnished with Grace and Sweet-

ness and Love and Smiles.

A single better word may disquiet an

entire family for a whole day. One

surly glance casts a gloom over the

household, while a smile, like a gleam

of sunshine, may light up the darkest

and weariest hours. Like unexpected

flowers which spring up along our path

full of freshness, fragrance and beauty,

so the kind words and gentle acts, and

sweet dispositions make glad the home

where peace and blessing dwell. No

matter how humble the abode, if it be

thus garnished with grace and sweet-

ness and smiles, the heart will turn

longingly toward it from all the

travels of the world, and home, if it be

ever so homely, will be the dearest spot

under the circuit of the sun.

And the influence of home perpetuates

itself. The gentle grace of the

mother lives in her daughters long after

her head is pillowed in the arms of

death, and fatherly kindness finds its echo

in the nobility and courtesy of sons who

come to wear his mantle and to fill his

place, while, on the other hand, from

where peace and blessing dwell, the dis-

ordered home go forth persons who shall

make other homes miserable, and per-

petuate the sourness and sadness, the

contentions, the strifes, the railings,

which have made their own early lives

so wretched and distorted.

Toward the cheerful home the children

gather "as clouds, and as doves to their

windows." While from the home which

is the abode of discontent and strife and

trouble, they fly forth as vultures to

rend their prey. - Earners' Home.

Rev. Mr. Jones a missionary from

China, in an address delivered in the

Pilgrim Congregational Church, Har-

lem, N. Y., on the Chinese question

said: "The Chinaman returning from

California are even worse than any class

in China. It is no uncommon thing for

the missionaries to be cursed in English

by Chinamen, and even little children

follow their example. I hope that no

more Chinamen will come to America,

as they learn all the vices here. An

exception is seen, however, in the cases

of those boys who have been gathered

into Christian Sunday-schools, and their

influence for good is untold."

DAINTY MILLINERY.

The Reign of Birds' Wings Succeeded by a

Passion for Ribbons.

Flowers ago so clearly in ascendancy

that some of the milliners even make

no use of feathers, unless ordered. The

bow of beautifully fabricated ribbon has

also a grand reign. It is seen in every

relation to the other garments, as well

as forming the exclusive ornamentation.

In the most frequent use of ribbon

are the two colors of ribbon

most frequently used. Thus a tur-

ban-shaped hat, in fancy black straw,

has for its trimming ribbons in citron,

green and pistachio, brought from be-

neath the rim at one side and drawn in

pleated lengths to the top, the arrange-

ment being completed by upright and

lateral bows of pliant effect.

Mr. P. H. Cunningham, of Henderson, was in the city yesterday and his wife and child who have been visiting relatives here for two weeks returned home with him last night.

Republican Convention.

The chairmanship of the Republican Congressional Committee of 2nd Congressional District of Kentucky, being vacant by the death of Col. W. A. Stewart, after due consideration I hereby call a convention of the Republican party in said district to meet at Sebree City on the 11th day of Sept. 1886, for the purpose of nominating a candidate for Congress. Each county will be entitled to one (1) vote for every one hundred (100) votes or a fraction over fifty (50) votes cast for the Republican candidate for President at the last Presidential election. The manner in which said delegates shall be chosen to be settled by the executive committee for each county.

NED CAMPBELL, Chairman.

Fire Alarm.

Hon. John Poland's residence caught on fire yesterday morning from the kitchen stove and the alarm was sounded. The fire was pretty well under control when the engine reported for duty. The roof was somewhat damaged, which was about all the loss sustained excepting the smashing of furniture, windows, fences, etc., by the excited crowd.

DIED.

Joseph Addison Meacham died Wednesday Sept. 1st, at his home near Kirksmansville, in Wilson's district, this county. He was about 64 years of age and had been an invalid for two or three years, during which time he suffered greatly. Deceased was the only brother of Rev. A. W. Meacham, of Bellevue, and was the youngest son of the late Wyatt Meacham, who was one of the earliest settlers of the county. The remains were interred at the family burying ground yesterday afternoon.

Notice to Old Soldiers.

The preliminary meeting held at the office of C. F. Jarrett in Hopkinsville, Ky., for the purpose of erecting a monument to the memory of the Confederate soldiers buried in the city cemetery was adjourned to meet at the same place on next Saturday evening Sept. 4th at 2 o'clock. All soldiers of the late war are cordially invited to attend.

HERE AND THERE.

Mr. M. Adams had two cows killed by lightning in his pasture last Saturday.

The regular Sabbath evening services will be resumed at the Methodist church next Sunday night.

Some tobacco leaves from Joe Pyle's crop, on exhibition in the city yesterday, measured 24x44 inches.

James Lanier killed a very large wild cat near Pine Hill in the Northern portion of the county, Monday.

The water-melon crop this year has been very fine. We have never seen finer home-grown melons brought to the city.

Mrs. Wash Diaguid, a daughter of Mr. F. H. Henshaw, died in the Sinking Fork neighborhood last Wednesday.

John Rogers, a nine-year-old son of Esq. P. F. Rogers, died Monday night. The parents have the sympathies of many friends.

The Fair Company has employed the Bowling Green Colored Band to make music at the coming fair. The local band declined to put in a bid.

Mr. A. G. Bush has moved his cottage on Virginia street back far enough to make room for a two-story house in front, which he will build at once.

Mr. N. B. Shyer has purchased Mrs. Knight's one-third interest in the buildings occupied by his two stores, corner Main and 9th Streets, for \$3,100 cash.

Circuit Court is coming on and it would be well for would-be-jurors to hear in mind that the man who asks the sheriff to put him on the jury is liable to be indicted and fined.

Mr. J. S. Bryan has sold Messrs. Joe K. Twyman and A. J. Meadows each a lot on 18th street, in the rear of R. H. DeTreville's. The lots are 100 feet deep and sold for \$257 each.

Lighting struck a hay stack at Mr. S. A. Glover's last Saturday and went clear through it and set the rails on fire at the bottom. A heavy rain succeeded the flash and by hard work the hay was put out and saved.

The mercantile firm of Wall & McGeehe, Newcastle, has been dissolved. Mr. J. D. Wall retiring. The business will be continued by a new firm composed of J. W. and A. C. McGeehe, under the firm name of J. W. McGeehe & Co.

The report of the murder of Wm. Calvin at Mat Avant's last week has been corroborated. Jeff Stevenson, the murderer, is still at large. Sheriff Boyd received a telegram yesterday from Clarksville asking what reward was offered for his capture.

Henry Weston, a twelve-year-old negro boy, was arrested yesterday and put in the lock-up for stealing a lot of bottles from Mr. R. P. Stevens' store. When arrested he had on two suits and all his pockets were filled with pint and half-pint bottles.

NOTICE.—Mr. L. L. Kelly, the picture man, will be in Hopkinsville on Monday, Sept. 6th, to deliver the numerous orders of enlarged portraits he took while recently here. Those holding his receipts for pictures please bear in mind that they may expect a call on or very soon after the above date.

Mr. Aquila B. Long who has served eight years as a Democratic jailor, moved his family to Crofton, his old home, Wednesday. He will surrender the jail to his successor, Mr. Geo. W. Long, next Monday. The latter has already moved into the jailer's residence. The late jailer is a candidate for inspector of the Hopkinsville tobacco market.

The Kentucky New Era, heretofore owned by Mr. Hunter Wood, has passed into the hands of a stock company composed of Hunter Wood, Jno. O. Rust and Frank Monroe. Mr. Rust is the editor of the paper and Mr. Monroe foreman of the office. Both retain their present positions and the policy of the paper will not be affected by the change of ownership.

Rev. E. Williams is canvassing the city this week to secure subscriptions to a fund to be appropriated to purchasing a site for the Colored Normal School in the city. The object is to be able to offer a free location as an inducement to secure the school for Hopkinsville. Our citizens generally are subscribing liberally to the fund which is to be collected only in the event the school is located here.

Assessor Littlefield will begin the assessment for 1887, under the new law, on the 15th inst. The work will be completed by Dec. 15 and the Board of Equalization will get through its work probably by early spring. About the only inconvenience to the taxpayers will be that their taxes for 1887 will be payable about six months earlier. Mr. Littlefield has appointed three deputies. Denton Brown will take No. 1 (North Christian); Jack Hanberry, No. 4 (Hopkinsville); A. W. Long, No. 3 and the assessor himself No. 2, which are in the southern and western portions of the county.

Active, Pushing and Reliable.

J. B. Armstrong can always be relied upon to carry in stock the purest and best goods, and sustain the reputation of being active, pushing and reliable, by recommending articles with well established merit and such as are popular. Having the agency for the celebrated Dr. King's New Discovery for consumption, colds and coughs, will sell it on a guarantee. It will surely cure any and every affection of the throat, lungs, or chest, and in order to prove our claim we ask you to call and get a Trial Bottle Free.

AN EARTHQUAKE.

The Whole Country Shaken Up And Charleston S. C., Almost Ruined.

An earthquake shock was felt all over the country, except in the far west, shortly after 9 o'clock Tuesday night. It was felt more or less perceptibly at Louisville, Cincinnati, New York, St. Louis, Nashville and in fact all over the country east of the Rocky Mountains. In Chicago and the northwest it was comparatively light. At most places only one shock was felt. Two shocks were felt at Nashville, just before 9 o'clock.

CHARLESTON DESTROYED.

The only place where any damage was done was at Charleston, S. C. In that city five shocks were felt, diminishing in violence from the first. The first was about 10 o'clock p. m. The people rushed terror-stricken from their houses. Great loss to property was caused and many lives were destroyed. Buildings were thrown down and numerous fires started, but these were promptly subdued and controlled. Later dispatches state that the shocks continued at intervals Wednesday and Wednesday night, though of a mild character. The last shock about midnight shook down several houses. At Charleston the death list foots up about 50 and the property loss is about \$10,000,000. Three fourths of the buildings will have to be rebuilt. It is impossible to describe the effects produced on the people there and elsewhere where the shocks were severe. Some prayed, some cried and some fainted from fright. Others leaped from windows and were killed or crippled.

IN HOPKINSVILLE.

The shock was very slight here. It was felt by Mr. A. H. Smyser in the R. & O. Telegraph office very perceptibly. Maj. J. O. Ferrell also noticed it while sitting up-stairs in his residence. At the Asylum the occupants of the fourth story were considerably shaken and fully realized what it was. Comparatively few persons in the city noticed it.

A Preacher in Limbo.

Detective K. D. Rogers, of Madisonville, and Constable Thomas Allen of Fruit Hill, arrested and brought to this city, Tuesday evening, Sumner Love, a colored preacher who has been in the neighborhood of Pon for the past twelve months. The arrest was made, Love answering the description given by a detective's agency of one Cooley who is charged with the murder of his wife and child at Bumpall, Ill., fifteen months ago, a reward of \$1,000 having been offered for his arrest and deliverance to the authorities at Falmouth, Ky. Constable Allen sent a telegram to Falmouth, Ky., and failing to receive an immediate reply and not wishing to be put to trouble about the matter on an uncertainty released his man.

Several hours after his release Sheriff Boyd received a telegram from A. E. R. Yazzou, an officer of Falmouth stating that a man answering his name and description was wanted there and to hold him. Love had by this time left the city, and nothing more has yet been done in the matter. He will likely be re-arrested and taken to Falmouth if he can be found. Love claims to be a Methodist preacher, but has been giving his brethren considerable trouble since he stopped with them a year ago.

The Congressional Race.

The interest in the Congressional race continues unabated. The anti-McKenzie men are still making themselves very noisy and have to some extent resumed their old tactics of circulating false reports of statements alleged to have been made by Mr. McKenzie. We have made a careful poll of the city and of 225 persons interviewed 140 are for McKenzie and 85 are for Laffoon or refused to say for whom they would vote. This list includes some on both sides from the district outside of the city. There are 731 voters in the district and we are still unable to see how the opposition can muster more than 100 or 150 at the very outside.

The reports of wide-spread opposition in North Christian are untrue. A well informed Republican, and of course disinterested, says there is but one influential Democrat for Laffoon at Crofton and that McKenzie has a good many strong friends there. Wilson and Fruit Hill will go for McKenzie. His friends are being aroused all over the country and will see that a handful of ringsters in Hopkinsville do not succeed in their efforts to crush him on account of prejudice and political jealousy.

BEVERLY, KY.

The drought ended here on the 21st with a severe rain-storm, causing considerable damage to fences, haystacks, etc. Since that time we have had several storms. The lightning is getting in its work most effectually this season. In addition to the serious indisposition it caused Mr. J. D. Jones on Saturday last, it struck a stable belonging to Mr. Ed. W. Coombs, of Locust Grove, instantly killing a fine saddle horse and a valuable hog.

The enterprising (?) village of Beverly is soon to have a dry goods and grocery store combined. Mr. M. E. Ham, of Miss., will be sole proprietor; he is a near relative of Mr. E. W. Coombs. This is a good place for a store, it is a great inconvenience to go so far to do all our shopping. Mr. Ham will occupy the store-room belonging to Dr. A. Kenner, on the west side of Main street.

Passengers are forbidden to ride on

the dead I. A. & T. R. R. The L. & N. does not consider it safe at all and does not care to pay for all the damage the crazy little track may do. Its change of ownership is very acceptable to the people of this community; indeed we have never thought that the road would be worth much until it did change hands. It is but natural that the people prefer to have the road in first-class condition, even if they do have to pay heavy tribute to the L. & N. company. Our hope of relief is in the proposed H. & C., or some other connection by the C. & O. company. It is quite evident that if the L. & N. gets hold of all the roads in this section it can charge its own rates, and a gentleman said the other day that judging from the previous record of the company it would take all it could get, and that our only salvation lay with the C. & O.

We do not always take an interest in politics, but this last election aroused all the interest that had hitherto lain dormant. The defeat of the democrats was so distressing and so unexpected that we are sure there was a mistake somewhere.

We are gratified that Hon. W. P. Winfree has determined to contest the recent election for County Judge. The republicans must have cast fraudulent votes and they should be taught that that does not count in this country.

A political friend of ours says there is not much excitement over the congressional race. We think this is due to the fact that the voting will be all one way, and that for Mr. McKenzie. The reputation that Mr. Laffoon has made as a congressman, has elicited our warmest admiration, and if Mr. McKenzie, the peerless, were not in the field, he should have our solid support. But we will say no more on these subjects, for fear some of the fair ones may shudder as they read this to think that a woman should discuss politics and railroads.

Elder J. W. Gant, a missionary preacher, held services at Liberty last Lord's day; but few were out owing to the dedication at Herndon the same day. Elder Granville Lipscomb will preach there next Sunday.

School Supplies!

Ed Gaither is now prepared to state, without fear of contradiction, that he now has in stock the fullest and best selected supply of School Books, School Supplies, Imported writing Pads and Tablets ever brought to this city, in addition to his fresh stock of Drugs, Fancy Stationery and Toilet Articles. Those desiring such goods will do well to call early.

Don't fail to call on us, we are closing out summer goods regardless of COST.

M. Frankel & Sons.

Just Received!

A large assortment of Pacific Lawn's, Organdies, &c., which we are going to sell cheap, these are nice, fresh and seasonable goods and we invite your attention to them.

Remember we stand pledged to duplicate any goods of same quality at as low prices as they can be bought anywhere. We have come to stay and propose to give as many more goods for the money than can be bought in the city.

You will find a big reduction in all our goods as we wish to make room for our fall stock. If you wish prices on anything come to see us.

JONES & CO.

This is an advertisement for A. W. PYLE, The Furniture Man.

My stock is full of cradles or cribs. With room for one or two or three. They are your kids to cry. When it takes so little a crib to buy?

We reserve the privilege of rejecting any or all bids offered.

August 4th, 1886. C. F. JARRETT, President.

JOE W. McPHERSON, Vice-President.

July 2.

SPOT CASH!

Having done a credit business for years, and feeling it disadvantageous, we propose on July 1st, 1886 to commence an exclusive CASH business. We will not take any more orders so that there cannot be any hard feeling toward us in case your order should not be filled if not accompanied by the cash.

Please notify your family accordingly, as we do not want the disagreeable duty of refusing to deliver coal on their orders, or return wagon empty.

THIS RULE IS POSITIVE, NO EXCEPTION. Do not ask for credit, for you will be refused and it will be embarrassing both for you and ourselves.
